STEM FAIR

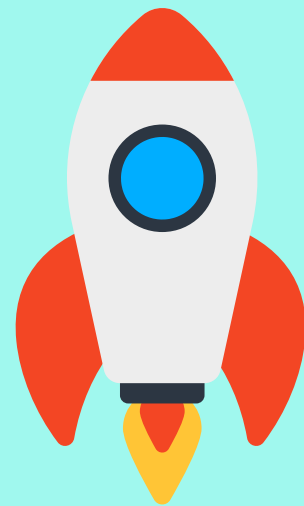

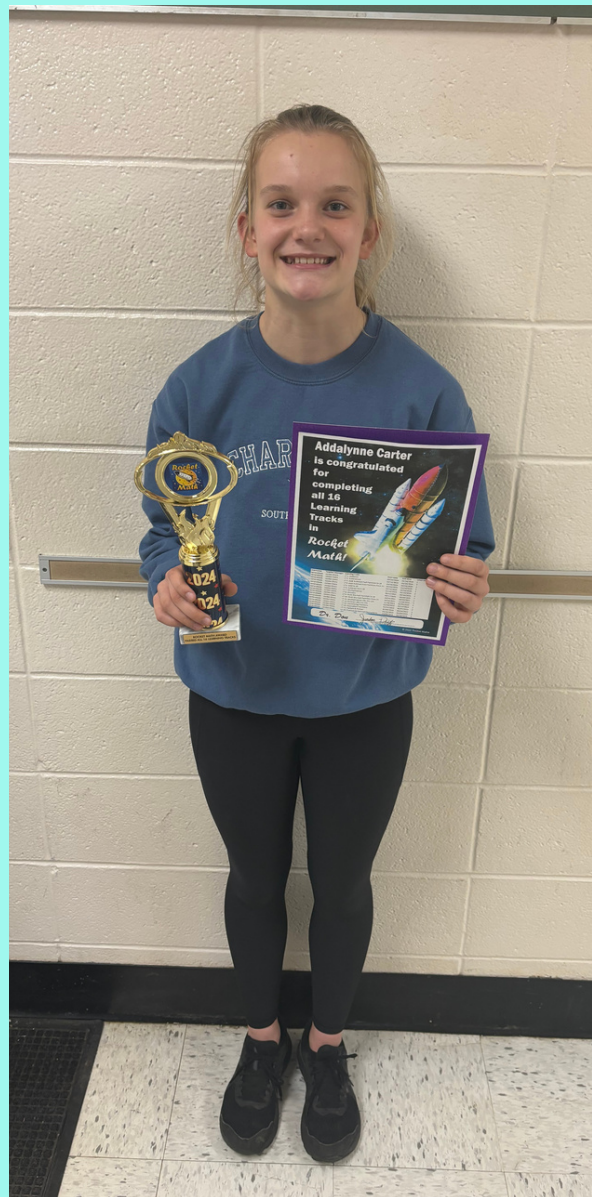

South Terrace Elementary second graders and preschoolers participated in STEM FAIR NIGHT at North Posey High School. The student's STEM projects were displayed along with a table to have guests make snowflakes out of toothpicks and marshmallows. There was a table where a STEM CITY was being built out of toilet paper rolls with all the scientists in their lab coats. We also had a photo opportunity to get your picture taken as Albert Einstein. It was a wonderful experience for everyone who came to participate in STEM FAIR. Thank you Michael MacMunn for putting together this unique experience for all of our North Posey students!!

EDUCATION North Elementary

ROCKET MATH

Congratulations Addalynne Carter! She finished all 16 learning tracks in Rocket Math. Way to go!

South Terrace

THANK YOU!

South Terrace Staff and Students would like to thank District Administration and our School Board for pursuing the purchase of the new furniture for our school. The furniture we received is a definite upgrade from what we had before, and it is so important to be comfortable while learning. Thank you again!

STEM FAIR 2024

The 2024 North Posey STEM Fair on March 14th (Pi Day!!) was a great opportunity for our NP students K-12 to display all of the wonderful STEM related projects they have been working on this year! Parents and community members visited the high school and were able to meet students, discuss STEM topics, and participate in some great projects. Faculty from the University of Southern Indiana as well as employees from Berry Global demonstrated some of the cool things that they do and got students and parents alike to do some hands-on learning. Thank you to all of our North Posey staff for helping to make this years STEM Fair a success!
