EDUCATION

Innovate Teamwork & Engineering

Innovate students in Pre-K and Kindergarten built shapes with straws, while those in Grades 1&2 built 3D shapes with the same materials and worked on cooperating in small groups. Youth in Grades 3-6 took on engineering towers made of spaghetti in small groups, and improved their communication, time management and teamwork skills.

Lego Letter Building

North Elementary Kindergarten students built letters out of Legos, and first grade students built words that started with their Lego letter. Kindergarten students were challenged to build their letter in 3-D if their flat letter was complete. First grade students were encouraged to build more than one item that started with their letter, if time allowed.

COMMUNITY ENGAGEMENT

Mesker Zoo Outreach Program

South Terrace Elementary second graders learned about habitats with the Mesker Zoo docents through their Outreach Program. They brought in live animals for the students to observe and ask wondering questions to learn more about why habitats are important to animals.

Field Trip to USI

On September 20th, students from Mr. Winegar's College & Careers class spent the day at USI. For many, it was their first time visiting a college campus. They walked the campus, heard from the admissions office, visited the art exhibition, participated in some theater exercises and toured the Screaming Eagles Arena.
